

SUPERIOR COURT OF FRANKLIN, ESSEX COUNTY

AFFIDAVIT OF ASHA MENON

MAIRA RIVERA d/b/a RIVERA INSTRUMENTS v. NORTHSTAR COURIER, LLC | Case No. FC-2026-CV-0418

I, Asha Menon, being duly sworn, state as follows:

1. I am the Regional Security Systems Manager for Northstar Courier, LLC. I have held that position since March 2022.
2. My duties include supervising access to warehouse security cameras, coordinating retention settings, and responding to legal holds involving recorded video.
3. I am familiar with the camera designated CAM-D3, which faces Dock 3 at 1180 Kingsley Industrial Road, Brenton, Franklin.
4. CAM-D3 records rolling video to a network video recorder with an ordinary fourteen-day retention period unless clips are manually exported.
5. The ordinary retention period is measured by storage availability and may vary by several hours depending on motion events and compression settings.
6. On October 16, 2025, at approximately 08:34, I received an internal message stating that a customer alleged dock damage at the Brenton facility.
7. At 09:42 the same morning, Northstar received an email from Rivera Instruments requesting that video and photos be preserved.
8. When I reviewed CAM-D3 later on October 16, I observed that its overlay timestamp lagged the facility network time by approximately eleven minutes.
9. The still frame labeled 21:42:10 overlay therefore corresponds approximately to 21:53:10 actual time, and the still frame labeled 21:48:32 overlay corresponds approximately to 21:59:32 actual time.

Overlay Time	Approx. Actual Time	Referenced Item
21:42:10	21:53:10	Still E-1B
21:48:32	21:59:32	Still E-1C / Photo E-1

10. I did not adjust or overwrite the overlay timestamps shown on the still images. I exported still frames because the video export queue failed twice during my shift.
11. I do not know whether the failed export was caused by bandwidth limits, permissions, storage capacity, or another technical issue.
12. I preserved four still frames, marked in the production log as E-1A through E-1D. Only one still frame was later selected for use as Photo Exhibit E-1.
13. I was not physically present at Dock 3 during the alleged gate contact and have no personal knowledge of whether truck NS-2041 touched the gate.
14. On October 17, 2025, I attempted to locate a native clip covering 21:30 to 22:10 actual time. The recorder showed partial playback but would not create a complete export file.
15. On October 30, 2025, when I checked the recorder again, the relevant native video was no longer available through the user interface.
16. The access log shows that user FAC-MAINT-02 opened the CAM-D3 stream at 22:11 on October 15 and user SEC-MENON exported still images at 10:18 on October 16.

User ID	Action	Time	Note
FAC-MAINT-02	Viewed CAM-D3 stream	2025-10-15 22:11	After gate report
SEC-MENON	Exported stills	2025-10-16 10:18	Four stills only
SYS-RETENTION	Routine overwrite	Not logged as deletion	Policy-driven event

17. The access log does not show any user deleting or trimming the CAM-D3 file, but the log does not record automated overwrites as deletions.

18. I provided the access log excerpt to counsel on November 4, 2025, and it was later included in Northstar's supplemental production.

19. I have reviewed the photograph marked E-2 depicting the rear bumper of NS-2041. I cannot authenticate that photograph because I did not take it and was not present when it was taken.

20. I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge, information, and belief.

Jurat and Signature

Executed in Brenton, Franklin, on March 29, 2026.
